**Certification /
Maintenance of Certification
Board Review Course**

April 15-18, 2010

Renaissance Hotel, Chicago

*Supported by an educational grant from
Teva Respiratory*

The 2010 ACAAI/AAAAI Certification/ Maintenance of Certification (MOC) Course is the premier postgraduate conference to prepare allergist/immunologists for certification and recertification.

This intensive Board Review Course will give you the winning edge – whether you are preparing for the initial certification ABAI exam, the Maintenance of Certification ABAI exam, or simply strengthening your skills.

Developed by outstanding faculty members, this three and one-half day course covers the major concepts included in the written exam and includes a comprehensive syllabus. Participants will hear summaries and review questions on subjects of interest to allergists and immunologists.

Supported by an educational grant from

TEVA RESPIRATORY

Learning Objective

At the conclusion of the meeting, participants should be able to identify, evaluate and manage the current problems and issues in allergy and immunology in preparation for the ABAI examination.

Accreditation

The American College of Allergy, Asthma and Immunology (ACAAI) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The ACAAI takes responsibility for the content, quality, and scientific integrity of this CME activity.

ACAAI designates this educational activity for a maximum of 29.25 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Target Audience

- Allergy & Immunology physicians and Fellows-in-Training preparing to take the 2010 ABAI Certification and Maintenance of Certification exams.
- Physicians who have completed their training but have never taken the ABAI exam.
- Allergists and immunologists seeking a literature review.

What Will Be Done?

The text for this course will be the current ABAI Course Outline. Questions from each speaker will be included in the syllabus. The questions and answers will be covered during the review to help registrants identify areas of strengths and weaknesses.
