

# Alliance Programs

## **Alliance Hospitality Suite**

**Friday, Saturday, Sunday & Monday**

**8:00 – 10:30 am**

**Glimmer Ballroom ~ Fontainebleau**

## **Friday, November 6<sup>th</sup>**

### **Miami – Points of Interest & What to Do!**

**8:30 – 9:30 am**

Charles J. Kropke is a leader in educational, ecological, historic, and cultural tours in Florida and the Caribbean basin. Charles will regale us with tales of lost and found Spanish treasure, privateers and pioneers and all the other ingredients to go into Florida's rich history. He will also highlight all that Miami has to offer and will expand on various points of interest and the must see's and do's of the area.

### **Too Much Is Never Enough: The Birth and Rebirth of Fontainebleau Miami Beach**

**9:30 – 10:30 am**

Alliance member, Todd Light, will present the story of Fontainebleau. This over-the-top Miami Beach landmark resort has been THE place to see and be seen since it first opened its doors in 1954. This iconic work of legendary architect Morris Lapidus has had a celebrity-filled past and been a vibrant gathering spot for visitors and the local community alike. You'll also look behind the scenes of Fontainebleau's recent \$1 billion renovation to learn how this icon was reborn.

## **Saturday, November 7<sup>th</sup>**

### **Chef Ralph Pagano**

**8:30 – 9:30 am**

Chef Ralph is a true culinary adventurer who has been called “The Indiana Jones of the Kitchen”. Join us as he will discuss, demo and teach about how proper foods do a body good by warding off allergies and building a better immune system. Count on tasting food that is said to cure the common cold and medicinal roots some believe heal aches and pains.

### **ACAAI KIDS**

#### **Cool Coastal Science**

**9:30 – 10:30 am**

The Cool Coastal Science Program will explore the amazing underwater world. You’ll investigate sea creatures and select real seashells, which you will use to create your very own coral reef.

## **Sunday, November 8<sup>th</sup>**

### **The Real CSI Miami**

**8:30 – 9:30 am**

Bruce McCord and Dee Miles will discuss aspects of forensic research in advanced methods of DNA analysis and casework, such as methods for DNA-typing of bone, hair and environmentally challenged samples

### **ACAAI KIDS**

#### **The Otterman**

**9:30 – 10:30 am**

Join Otter John, along with his wild friends, as he shares his knowledge of wildlife, enlightens your imagination, and stimulates your senses through first-hand experience! You will have the opportunity to touch some of the animals, such as a young alligator, snake, and tortoise. The presentation is very exciting and safe for everyone.
